EXCITING FEATS FOR EBERRON HEROES

With the cataclysm of the Last War, many secrets and truths of the races of Eberron were lost in the fallout. The past is never fully lost, though, and this homebrew supplement explores some methods to customize races that originated in *Eberron: Rising from the Last War*. These racial feats are also compatible with the races reprinted in *Mordenkainen's Monsters of the Multiverse*. The races and feats are summarized in the table below.

As was reviewed in *Xanathar's Guide to Everything*, using racial feats means that your connection with your race's culture or lineage has deepened; or perhaps something more dramatic has happened in your adventures. Perhaps you've learned to share your gifts with others, or maybe learned to access the spirit form of your animalistic ancestor, or even unveiled secret House blueprints to incorporate into your own physical design.

The feats within are presented in alphabetical order.

AEGISKERYN

Prerequisite: Warforged, Dexterity 10 or greater

You are more than a mere golem, but this elven design can enhance your own. You gain the following benefits:

- You learn the *shield of faith* spell and can cast it at its lowest level without expending material components or spell slots a number of times equal to your proficiency bonus. You regain all expended uses when you complete a long rest.
- Any light or medium armor you incorporate into your body can apply your full Dexterity modifier (instead of a maximum of +2) to determine your Armor Class.
- Your Integrated Protection AC bonus now increases by half your proficiency bonus (rounded down). This AC bonus stacks with any integrated armor, unarmored defense, and shields you have.

CHA'TEL'QUORI

Prerequisite: Kalashtar

Your quori half didn't merge with a human, but a half-elf; and you are rediscovering that part of your soul. You gain the following benefits:

- You have darkvision out to 60 feet. If you already have darkvision from another source it increases to 90 feet. You can't discern color in darkness, only shades of gray.
- You have advantage on saving throws you make to avoid or end the charmed condition on yourself
- Choose a benefit from one of the following heritages:
 - Dark Elf:** You can cast the *faerie fire* and *darkness* spells each once from this feature without expending material components or spell slots, and they recharge after a long rest. These can also be cast using any spell slots you have of appropriate level. When you take this feat you choose if Intelligence, Wisdom, or Charisma is your spellcasting ability for these spells.
 - High elf:** You know one cantrip of your choice from the wizard spell list. When you take this feat you choose if Intelligence, Wisdom, or Charisma is your spellcasting ability for this cantrip.
 - Wood Elf:** You can attempt to hide even when you are only lightly obscured by foliage, heavy rain, falling snow, mist, and other natural phenomena. In addition, your walking speed increases to 35 feet.

CHARM AND CHAOS

Prerequisite: Changeling

Sometimes manipulating allies and enemies needs a magical boost. You gain the following benefits:

- You learn the *friends* cantrip, or if you already know it, you can learn one other bard cantrip of your choice.
- You learn the *charm person*, *calm emotions*, and *enemies abound* spells. You can cast each of these spells once at their lowest level without expending material components or spell slots. Once cast from this feature, you can't cast them again until you finish a long rest. You can also cast these spells using any spell slots you have of the appropriate level.
- When you take this feat you choose if Intelligence, Wisdom, or Charisma is the spellcasting ability for these spells.

DRAGON'S INFLUENCE

Prerequisite: Dragonmarked race

It's almost as if your house's dragon is influencing you through your mark. You gain the following benefits:

- You gain proficiency in either Arcana, History, Investigation or Nature. If you are proficient in all four skills, you instead gain proficiency in one skill of your choice.
- You learn to read, write, and speak Draconic; or one language of your choice if you already know it.
- You learn the *thaumaturgy* and *heroism* spells. You can cast *heroism* at its lowest level a number of times equal to your proficiency bonus without expending material components or a spell slot. You regain all expended uses when you finish a long rest. You can also cast this spell using any spell slots you have. When you take this feat you choose if Intelligence, Wisdom, or Charisma is the spellcasting ability for these spells.

DREAMSIGHT MAGIC

Prerequisite: Shifter

Both instinct and magic lets you influence a multitude of animals. You gain the following benefits.

- You gain proficiency in Animal Handling. If you are already proficient, you can add double your proficiency bonus for all Wisdom (Animal Handling) rolls.
- You learn the *animal friendship* and *beast bond* spells, and can cast each at their lowest level without expending material components or spell slots a number of times equal to your proficiency bonus. You regain all expended uses when you finish a long rest. These spells can also be cast using spell slots you have of the appropriate level. When you take this feat you choose if Intelligence, Wisdom, or Charisma is the spellcasting ability for these spells.

HEIR OF SIBERY

Prerequisite: Dragonmarked race, 10th level of above

Your mark expands all over your body, a sign that you are a chosen from the progenitor dragon. You gain the following benefits:

- You learn two cantrips of your choice from the sorcerer's spell list. These cantrips use the same spellcasting ability as your racial spellcasting trait.
- Each time you gain a level, roll a d10. A roll of 9 or 10 gains you an Epic Boon from among the options in chapter 7 of the *Dungeon Master's Guide*. The DM chooses from the Epic Boon options or determines randomly which boon you receive. You repeat this roll each time you gain a level until you receive a second Epic Boon. Once you've gotten your second Epic Boon, you no longer have a chance of getting more through this feature.
- If you fail to gain a boon at 18th level and have not received a boon from this feat previously, you may choose one Epic Boon to get at 18th level. If this happens, you no longer roll for a chance for an Epic Boon at 19th level. When you reach 20th level, the DM assigns you an Epic Boon either of their choosing or from random determination.

HOLDING STORAGE MODEL

Prerequisite: Warforged

You've learned how to modify your torso based on unique warforged blueprints. You gain the following benefits:

- Within your torso is an extradimensional space matching the size and effects of a Bag of Holding. Placing an object into the dimensional space follows the normal rules for interacting with objects. Whenever you reach into the dimensional space the specific item(s) are always magically on top. Breathing creatures of Small size or less can survive up to a number of minutes equal to 10 divided by the number of creatures (minimum 1 min), after which time they begin to suffocate.
- Any Bag of Holding, Heward's Handy Haversack, Portable Hole, or similar object can't be placed within the dimensional space. You may be placed in a Bag of Holding, Portable Hole, or similar object with the usual limitations. If you access your dimensional space while within any Bag of Holding, Portable Hole, or similar object, you are reduced to 0 hit points, the object is instantly destroyed, and a gate to the Astral Plane is opened. Once this occurs you can't access your extradimensional space for 1d4 days.
- Items and creatures can't be magically summoned into the dimensional space, they must be physically placed there by you. Damage and lost limbs will not result in a breach of the dimensional space. If you access your dimensional space while within a Bag of Holding, Portable Hole, or similar object; or are killed, all items in the extra dimensional space are shunted to the Astral Plane. Reviving your character from death will not return lost items to your dimensional space.

HOUSE PRIDE

Prerequisite: Dragonmarked race, must have the spellcasting or pact magic class feature

No dragonmarked house wants to admit their members can't cast their spells. You gain the following benefits:

- Your Spells of Mark are always prepared and don't count against your total known spells. None of your Spell of Mark spells require spell components. If you have more than one spellcasting ability due to multiclassing, you choose which spellcasting ability to use for your Spell of Mark spells when you take this feat.
- You can cast each 1st level Spell of Mark spell once without expending material components or spell slots. Once cast this way, they can't be cast again until you finish a long rest.

MIMIC MULTIPLICATION

Prerequisite: Changeling

With a touch of your hand you can extend your own shapeshifting gift to a friend. You gain the following benefits:

- As an action you touch one willing creature which can immediately change its shape as if it had a copy of your Shapechanger trait and had used an action to activate it. Only one creature can benefit from this feature at a time. A creature loses the benefits of this ability after 1 hour, or if you decide to end it at any time without using an action. You can use this feature a number of times equal to your proficiency bonus, and regain all expended uses when you finish a long rest.

MINDWALKER

Prerequisite: Kalashtar

Awake or asleep, your ability to mentally reach people exceeds the average kalashtar. You gain the following benefits:

- When you use your Mind Link trait, you can now communicate simultaneously with a number of creatures equal to your proficiency bonus. This communication is now a psychic link and no action is needed for them to communicate with you for 1 hour. You can end this link with any creature as a bonus action. In addition, once the link is established neither you nor the target creatures need to see each other to communicate as long as both of you are within range.
- You learn the *dream* spell and can cast it once without expending material components or a spell slot. Once you cast this spell using this feature you can't do so again until you finish a long rest. You can also cast this spell using any spell slots you have of the appropriate level. When you take this feat you choose if Intelligence, Wisdom, or Charisma is your spellcasting ability for this spell.

NIMBLEWRIGHT BUILD

Prerequisite: Warforged

The warforged have their own type of assassin and you've learned their tricks. You gain the following benefits:

- You have resistance to necrotic damage
- You have darkvision out to 60 feet. If you already have darkvision from another source it extends out to 90 feet. You can't discern color in darkness, only shades of gray.
- You learn the *haste* spell and can cast it at its lowest level without expending material components or a spell slot from this feature. Once cast you can't cast it again until you complete a long rest. You can also cast this spell using any spell slots you have of the appropriate level. When you take this feat you choose if Intelligence, Wisdom, or Charisma is your spellcasting ability for this spell.

PSYCHIC SPELLMASTER

Prerequisite: Kalashtar

Your connection to the otherworldly realm has granted you insight into understanding psychic magic. You gain the following benefits:

- You learn the *mind sliver* cantrip, or one other wizard cantrip of your choice if you already know it.
- You know the *detect thoughts* spell and can cast it at its lowest level without expending material components or spell slots a number of times equal to your proficiency bonus. You regain all expended uses when you complete a long rest. You can also cast this spell using any spell slots you have of the appropriate level.
- When you take this feat you choose if Intelligence, Wisdom, or Charisma is your spellcasting ability for these spells.

RIEDRAN TRAINING

Prerequisite: Changeling

There is much to be learned from those trained by psychic masters. You gain the following benefits:

- You have resistance to psychic damage
- You have advantage on Wisdom saving throws
- If there is a surprise attack while you are sleeping, you immediately awaken and may treat the combat round as normal.

SUPER SHIFTER

Prerequisite: Shifter

You have more than one bestial aspect within your veins. You gain the following benefits.

- You gain proficiency in Perception, or if you are already proficient you gain proficiency in another skill of your choice.
- You learn one additional Shifting option other than one you already have. When you activate your Shifting trait, all feature attributes activate simultaneously.
- You can select this feat multiple times. Each time you do so, you must choose a different Shifting option.

THERIANTHROPE

Prerequisite: Shifter

You can tap into the spiritual origin of your animalistic shift. You gain the following benefits.

- You can use your action to polymorph into your shifter ancestral beast (see beast options below). This beast form must be of your bestial aspect and once chosen you can't choose another beast shape. Your statistics as well as your mental ability, personality, and alignment are the same in each form. While polymorphed you gain access to the beast form's capabilities, senses, movement, and Actions. Any equipment you are wearing or carrying isn't transformed. You can transform back into your humanoid form as an action. If you are reduced to 0 hit points or die while polymorphed, you transform back to your true form with 1 hit point. Once you've used this feature you can't use it again until you complete a long rest. All beast options details can be found in the *Monster Manual* (MM).
 - Beasthide (choose one): Brown Bear (MM p. 319) or Giant Boar (MM p. 323)
 - Longtooth: Dire Wolf (MM p. 321)
 - Swiftstride: Saber-Toothed Tiger (MM p. 336)
 - Wildhunt (choose one): Allosaurus (MM p. 79), Giant Eagle (MM p. 324), or Hunter Shark (MM p. 330)
